

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	28 June 2026
Team ID	
Project Name	Comprehensive Analysis and Dietary Strategies with Tableau: A College Food Choices Case Study
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Collection	Collect College Food Choices dataset from reliable source
FR-2	Data Preparation	Clean dataset, remove duplicates, handle missing values, data formatting
FR-3	Data Visualization	Create charts, graphs, KPIs, calculated fields and filters
FR-4	Dashboard Development	Design interactive and responsive Tableau dashboard
FR-5	Story Development	Create Tableau story with multiple scenes to present insights
FR-6	Performance Testing	Test dashboard loading speed, filter performance and data accuracy
FR-7	Web Integration	Embed Tableau dashboard into Flask application
FR-8	Documentation	Prepare project documentation and demonstration video

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Dashboard should be simple, interactive, and easy to understand
NFR-2	Security	Ensure secure access to project files and dashboard.
NFR-3	Reliability	Dashboard should provide accurate and consistent analysis.
NFR-4	Performance	Dashboard should load quickly and respond efficiently.
NFR-5	Availability	Dashboard should be accessible whenever required.
NFR-6	Scalability	The system should support larger datasets in the future.
